## New Kiln Road Plans Shown Supervisors

### Vacated School Plants Inspected by Board

After examining a form of resolution prepared by attorney Walter James Phillips to release unused school property to interested civic or religious organizations, the County School Board adjourned its meeting at 11 a.m. Monday to inspect the property.

The Rev. G. J. Johnson, pastor of St. Ann's parish Sacred Heart Mission at Dedeaux, and the Rev. Celestine Pfannenstill of Church of the Annunciation at Kiln appeared before the board. Both have requested use of the schools and property for recreational and educational purposes. The buildings were vacated after the opening of North Central, a consolidation of Dedeaux, Kiln, Leetown and Sellers schools.

The board will reconvene Saturday at 9 a.m. to further discuss the resolutions. Phillips said the law was clear that the board could only convey property

not needed. It was pointed out that several teachers are living on the property and there is timber on some of the land.

Mrs. C. C. McDonald, chairman, said any deed or conveyance to the property should set out very clearly what is being conveyed and thought that in addition to a survey, the board members should examine the property personally. All members agreed and it was decided to visit the property after the meeting.

Mrs. McDonald said the conveyances should contain a clause that the property could not be used for a day school because

### Propose Shift at U.S. 90 Entrance

Preliminary drawings of the federal aid state secondary project between Kiln and Bay St. Louis of Highway 603 shown Hancock County supervisors Monday morning indicated the possibility of a U. S. 90 entrance approximately one mile west of the present Nicholson Avenue-Kiln Road intersection.

J. F. Brownlee, state district engineer of Hattiesburg, agreed to consider the board's request that the present entrance be retained, even though it was a half of a mile longer than the new 9,230 mile route and additional construction would be needed in the Bayou Choctaw area.

The supervisors felt construction in the area merited retaining the Nicholson Avenue-U. S. 90 entrance.

Brownlee estimated cost of the project in the neighborhood of \$1 million and approximately one and a half years for completion after the contract is let.

He said there is a possibility of letting the contract next fall, including it in the next July state budget.

Other changes in the highway were a move of the Jordan River bridge approximately 40 feet west of the present site to eliminate kinks in the highway line and so that a detour bridge can be used during construction.

Brownlee will meet with the supervisors Dec. 21 to reach a formal agreement. The supervisors agreed to obtain additional easements themselves and reverse a previous resolution giving \$3,000 to the state to obtain them. Brownlee said a minimum of 100 feet in width is needed.

A question of whether the county would move the present gas line before construction was deferred until the next meeting so that Waveland officials could be contacted.

In answer to the board's query about ownership of the old U. S. 90 roadway, Brownlee confirmed state ownership of the roadway and property between the present highway and the old site. He said the state has abandoned

### Blinker Light Asked at Trail And Nicholson

According to A. G. Dantagan, president of the Hancock County Chamber of Commerce, representatives of the chamber will go before Hancock County Board of Supervisors early next year to request a blinker signal light at the intersection of Old Spanish Trail and Nicholson Avenue.

The matter was first brought to the attention of the board of supervisors in a letter written last month. The letter pointed out the numerous accidents and traffic fatalities which have occurred at this intersection in recent years.

The fact that three new members, a majority, take office in January was the reason given by Beat 5 Supervisor R. G. Hubbard for the present board's withholding action on the request in the letter. Hubbard pointed out that the county, along with

### An Editorial

### Things to Ponder

With only six more shopping days until Christmas, how many of us have thought of the needy as well as of our family and friends? How many have thought of their church and the child Christ as they have of holiday plans and parties?

How many have thought of next Monday's smorgasbord dinner honoring Bay High School's championship team, to which all are invited, as they have of the different bowl games.

How many have seriously thought of the teachings of Christ, because of whom they anticipate a holiday?

We were just pondering.

### 4 Are Injured In 90 Mishap

Four persons were injured in a two-vehicle traffic accident about 9 a.m. Sunday on U. S. 90 just west of the truck scales.

Staff Sgt. Frank G. Rasputnik of Houston, Tex., driver of one of the vehicles was charged by Highway Patrolman K. V. Allen with reckless driving and forfeited \$10 bond after failing to appear for trial before Beat 5 Justice of the Peace Nolan Lader at 10 a.m. Monday.

Rasputnik and his wife, Carmen, and son, Randy Charles, were treated at Hancock County Hospital for head injuries and released. They were riding in a 1957 model station wagon which was damaged about \$300.

John L. Tankersler of New Orleans, driver of a 1957 model pick-up truck which also was involved in the collision was also injured but declined treatment. Damages to that vehicle were estimated at \$150.

Both cars were travelling in the same direction, according to the investigating officer's report.

### OUR LADY OF THE WOODS New School May Require Moving Our Lady Shrine

An outstanding landmark of Bay St. Louis, the shrine of Our Lady of the Woods at St. Joseph's Academy, may have to be moved to make way for the proposed school of Our Lady of the Gulf parish.

Most of the plants and trees at the rear of the shrine were cut when land for the new school was cleared during the summer, but it hasn't been determined yet if the shrine will have to be moved, according to the Rt. Rev. Msgr. Martin Moloney, pastor of Our Lady of the Gulf.

Established almost 90 years ago by Father Buteux, a pioneer French missionary, the shrine honors Our Blessed Mother. Father Buteux promised the shrine when his storm-battered ship, returning from France, was saved.

The dairy statue was blessed Our Lady of the Woods and was placed among the trees at the rear of the convent property. Its first pedestal was the trunk of a tree.

Years later, a parishioner, involved in some serious trouble, promised to build a suitable

shrine in her honor if Our Lady of the Woods would help him. The favor was obtained and he built the modest shrine that remains to this day.

The shrine has withstood many severe storms without damage, but a hurricane in 1947 destroyed most of the original cedars planted on the lane leading to it.

To many visitors the shrine of Our Lady of the Woods offers a quiet and attractive spot where they can forget the cares of today's world.

### Prayer Booth Memorializes Mr. McCaughan

When Miss Isabelle McCaughan visits Miami, Fla., during the Christmas season, she will have an opportunity to see for the first time the outside prayer booth erected by the congregation of Holy Cross Episcopal Church there as a memorial to her brother, the late Grover C. McCaughan.

Mr. McCaughan was senior warden of the church for 25 years and upon his death a year and a half ago, the membership selected that project as a means of honoring him.

At the entrance of the sanctuary, it provides a place for prayer for the many visitors who stop by there. It was dedicated about two months ago but Miss McCaughan was unable to make the trip at that time. She leaves today to spend the holidays with friends in Miami.

### County Agent Notes.....

By Howard Simmons

#### SHEEP MANAGEMENT

Management problems are number one with the sheep producers in Hancock County at this season.

Ewes are spring heavy, lambing or have just lambed. They need special care. Unless your springing ewes are on good green grazing, give them around 1/2 pound daily of protein meal and some good legume hay.

Check your heavy springing ewes often to make sure that the new born lamb gets milk immediately after being born. This is especially important in cold wet weather.

During lambing season check your ewe flock around 9: p.m. and again around 5:30 or 6: the next morning. Very few lambs will be born after the ewes settle down at night and up until they start moving about in the morning.

Dock and castrate lambs at 10 days to two weeks of age. Lambs docked and castrated will bring more money than those that are not. Lambs that have not been docked and castrated often bring as much as \$5 or \$6 per hundred less money.

#### PROFITABLE DAIRYING

Some good rules to follow for making money dairying include: Balance the number of cows with your feed supply. Shoot for higher profits per cow, per acre and per man. Make your goal 8,000 to 12,000 pounds of milk per cow.

Keep records. This is good business. Records will help you cull out loafers, select brood cows, replacement heifers and help you improve your feeding. Feed every cow according to her production.

Provide plenty of pasture. It is the cheapest feed. It saves labor and increases milk production. It also uses land that is not suited to growing other crops.

Manage your pastures for more money. Provide a succession of seasonal grazing—constant supply. Rotate grazing and control weeds. Lime and fertilize for higher yields. Save surplus grazing as hay or silage. Cut cost with quality stored

roughage. High quality roughage cuts concentrate needs and lowers cost. Feed quality hay and silage whenever pastures are short, regardless of the time of year. With plenty of high quality roughage, you can cut your feed costs 20 per cent. Have a reserve supply in the silo.

#### ORCHARD NOTES

It is planting time for fruit trees, grapes and other home orchard plants. But before you order your plants, make sure you get the proper varieties. Your county agent can supply you with a list of the recommended varieties.

Then select your planting site and prepare for planting. Make sure to check recommended planting distances.

## Groups Assist Red Cross In Hospital Entertaining

Various women's organizations throughout Hancock County have assisted with the entertainment and supply program of the Red Cross chapter for patients at the Veterans Administration Hospital in Gulfport during the past year, according to the report of the chairman, Mrs. Winthrop Baker.

The groups, which will continue this service in the coming year, include the women of the Baptist and Episcopal churches, the Methodist churches in Bay St. Louis, Waveland and Clermont Harbor, St. Joseph's Academy, Order of the Eastern Star, Women's Benevolent Association, Women of the World, American Legion auxiliary, Pass Christian Yacht Club auxiliary, St. Margaret's Daughters and Alar Society and Bay-Waveland Garden Club.

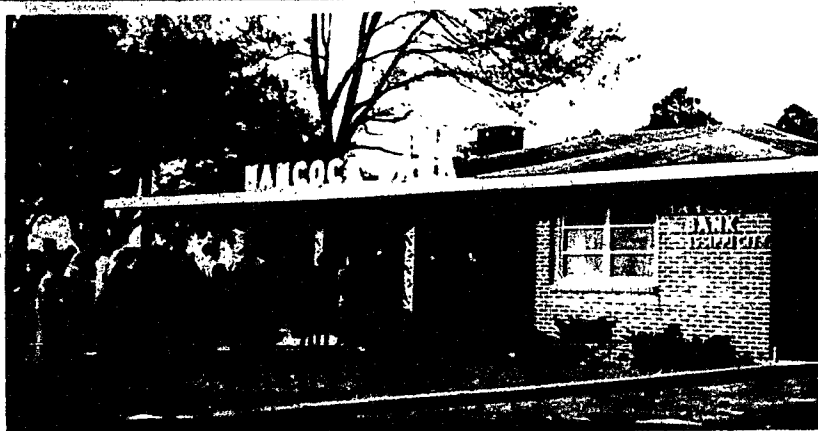

In addition, Junior Red Cross members have collected magazines to be taken to the patients from Bay High School. A number of Red Cross Gray Ladies in the county also have given much time to assisting at the VA hospital and given four or five ward parties a month, entertaining from 100 to 125 men. Miss Alberta Beyer has contributed 258 hours already this year.

While Mrs. Walter Haves has given 172 hours, Mrs. Marion Beal 135 hours and Mrs. V. J. Piazza 99 hours. Other Gray Ladies who are active include Mrs. V. M. Dandridge and Mrs. Annie Graham. Groups of women in Bay St. Louis and Waveland have made 60 Christmas stockings for patients at the hospital, using a generous check from the Clement R. Beaumont Post 139, American Legion, to fill them with gifts.

In addition to the entertaining and holiday cheer, supplies are taken throughout the year to the patients, Mrs. Baker noted, requesting individuals to call her when they have items ranging from toothbrushes to stamps and combs to give the men.

Other service contributions of the county Red Cross chapter this year included two water safety classes for which Dr. Wesley McFarland made available the pool at Gulf View Haven.

Mrs. Octave Delph, executive secretary of the chapter, serves at the ARC office in the Courthouse as the liaison between the military and their families, helping to process claims and other matters related to veterans and servicemen.

## Homestead Exemption Filing Begins Jan. 4

Applications for homestead exemption may be executed Jan. 4 through April 1 in the tax assessor's office at the Courthouse, George E. Heitzmann, tax assessor-elect, has announced. Owners of homes constructed in 1939, if eligible for exemption, are advised by Heitzmann to file the exemption form in 1940 as their property will be assessed and the owners will have to pay considerably more taxes if they fail to file the exemption form.

Bay St. Louis residents who own their homes should also file for exemption at the City Hall.

### Mrs. Fairley Gets Girl Scout Post

Mrs. Fairley attended college at Mississippi State College for Women and Mississippi Southern, receiving her BS degree from Southern in 1937. She did graduate work at the University of Alabama.

### Church Pageant Set

The Sunday School of Christ Episcopal Church will present its Yuletide pageant at 5 p.m. Sunday at the church with party following in the parish house.

Additional questions were added to the form this year in accordance with a bill passed at the last term of legislature. They are "All Mississippi Income taxes due by me and my spouse have been paid (yes, no or none due), I, my spouse, and all participating joint owners occupying this property have shown this same residence as the tax situs."

### Land Abstracts Being Prepared

Representatives of McIntosh and McIntosh, land abstractors of Collins, are now working in the vault room of the courthouse as a result of the recent oil discovery in the county.

The abstractors are now compiling land titles, transfers and maps on a private basis and expect to be here for about a month.

**TRIBUTE TO JOHN BELL** — Bay-Waveland Yacht Club Commodore Norman Renshaw, present, admires the portrait of John Bell, first commodore, which was presented to the club at the annual membership meeting Saturday night commemorating the anniversary of its reactivation.

## Hospital Yacht Club Honors Bell, Elects Erwin

John Bell, first commodore of the reactivated Bay-Waveland Yacht Club, was honored at the annual membership meeting Saturday when his portrait, painted by Bea Smith, was presented to the club as a tribute to his service and leadership.

Bell, who was a leader in reorganizing the club, was also honored for his work in constructing the present club house at the meeting which commemorated its 10th anniversary. The tribute to Bell was paid by Norman Renshaw, former commodore.

The membership meeting attracted many out of town members and is an outstanding event of the Christmas season. All past commodores attended and were introduced by Henry Chapman, a former head.

Retiring Commodore Charles Lozano turned his gavel over to J. E. Erwin, who was elected at a board of governors meeting preceding the membership schedule. Leo Seal Jr. will serve as vice commodore and W. R. Gordon was reelected secretary-treasurer.

Four new members elected to the board of governors were Dr. Ed Socola, C. C. McDonald Jr., Walter James Phillips and Edward Heath.

**CONTENTED JERSEYS** — A dairy man since May, C. P. Slay checks two of his 40 head of cattle. A refrigerated truck picks up approximately 576 1/2 pounds of milk each day. Originally from Alabama, he has been in Hancock County for four years.

### C. P. Slay's Story

## Dairy Farming at Flat Top

After disease destroyed a large part of his hog herd last year, C. P. Slay of Flat Top turned to dairy farming to supplement his income.

Located in the tung oil belt, 35 acres of the farm are cultivated in a tung orchard. "I got one ton of oil per acre last year on the trees and 14 tons in 1957. The crop looks good for this year and prices are about 23 cents per pound now," Slay said.

"I had a few head of beef cattle which I sold to go into dairying along with 50 head of hogs. The dairy became official May 1 of this year, but I was milking before then," he said.

Slay now has 40 head of cattle and is getting 576 1/2 pounds of milk per day out of 25 cows. "I milk twice a day at 5 o'clock," he said.

Mrs. Wimberly, who was accompanied by Jerome Drane, new manager as of Jan. 1, later conducted a question and answer period for the students and urged that every worker have a social security card and familiarize himself with the organization.

The Rocks started slowly, bad luck and fumbles combining to put them on the short end of a 42-15 score at halftime but they came back to outplay the heavily favored Commodores in the third and fourth stanzas, scoring 29 points in the second half to Gulfport's 23.

## Coast Dentists Pay Tribute To Dr. Evans' Long Service

Dr. J. A. Evans, who has been practicing dentistry in Bay St. Louis for more than half a century, was honored by his colleagues along with Gulf Coast at a dinner last Thursday at a Biloxi restaurant.

The veteran dentist was presented with an engraved desk set by Dr. C. H. Gray of Pascagoula, president of the 5th District Dental Society who praised his outstanding contribution to the profession throughout the years and his influence and help to fellow dentists in the treatment of dental disease.

Born in Shubuta in 1885, Dr. Evans has been practicing since

his graduation from New Orleans College of Dentistry. He moved to the Bay in 1905 and has taken an active part in civic affairs as well as his profession.

Dr. Evans was a member of the City Board of Education for 20 years, serving as its chairman for eight years. He also was chairman of the local Mardi Gras Ball for 10 years and was its third king. Officers were elected during the session with Dr. O. J. Mollere of Waveland chosen secretary-treasurer. Dr. Guy Lewis was named president with Dr. Troy Sheffield vice president. Both are from Gulfport.

Most of the comforts and conveniences that we enjoy today are accessible to us more or less in proportion to the number of people who live near us.

Schools, churches, doctors, electric power, stocks of foods, medicines, and clothing, trained technicians to service our needs, customers for the

products of our own labor . . . all of these are ours to enjoy . . . as long as there are enough PEOPLE in the community to support them.

Every dollar that leaves this community helps to move somebody out. Every dollar that is spent here, helps to bring more people in.

## Monitor Makes Its Debut

The first 10,000 copies of the Mississippi Coast Area Monitor were received Saturday by Mrs. Frank Kiefer and Mrs. Wayne Ducumb of Bay St. Louis, co-publishers of Mississippi Monitor Publications.

Written by Mrs. Kiefer with drawings and maps by Mrs. Ducumb, the 82-page brochure introduces the six coast counties, Hancock, Harrison, Jackson, George, Pearl River and Stone, and shows advantages of climate, location and natural resources in the area for industry location and tourist attraction.

A national circulation is planned for the brochure in areas which have indicated an industrial interest in the coast, according to Mrs. Kiefer.

Long range plans call for

the firm to mail one million copies of Monitor out of Mississippi during a single year in order to attract new industries and tourists, Mrs. Kiefer said.

A second Coast Area Monitor is planned for next December and a Monitor of the Natchez area is scheduled later.

## Forestry Contest Plans Under Way

The annual adult Forestry contest sponsored by the Mississippi Forestry Association and Sears-Roebuck Foundation is now under way for 1960, according to Joe Zary, Hattiesburg, contest coordinator for the southeast district.

Counties in the southeast district include Jeff Davis, Covington, Jones, Wayne, Marion, Lamar, Forrest, Perry, Greene, Pearl River, Stone, George, Hancock, Harrison, and Jackson.

The contest is actually a five-acre forest improvement project designed for adult timberland owners and operators. Tree planting, protection, timberland improvement, proper harvesting, and use of products are among major practices for which contest points are given. Bonus points may be gained by showing the contest plot to others and inviting them to enter the contest, keeping accurate records, and erecting the contest sign on the plot.

## Building Permits

Building permits issued in the office of City Commissioner J. Cyril Glover during the week ending Dec. 15 were as follows: John J. McDonald, erect dwelling on State St., \$4,500.
